359
years of innovation

Worldwide leader in light and sustainable construction, Saint-Gobain designs, manufactures and distributes materials and services for the construction and industrial markets. Its integrated solutions for the **renovation** of public and private buildings, **light construction** and the **decarbonization of construction and industry** are developed through a continuous innovation process and provide sustainability and performance.

MAKING THE WORLD A BETTER HOME

Locally in Hong Kong, Saint-Gobain offers a wide range of construction products such as Weber mortars, Gyproc gypsum building products, Isover insulation, Saint-Gobain building glass, SageGlass, adhesives & sealants, Weber / Chryso / GCP construction chemicals (including cement additives, concrete admixtures, and specialty building materials), PAM piping, Vetrotech, Abrasives, High Performance Plastics, etc.

Saint-Gobain is the largest mortar manufacturer with factory in Hong Kong & Southern China and has a strong positioning across Asia.

We are committed to
contributing to net zero
emissions by 2050.

COMMITMENT
